Summary

A highly skilled Full Stack Developer with proficiency in both front-end and back-end development. Experienced in creating dynamic, responsive web applications using technologies like HTML, CSS, JavaScript (React.js), and back-end frameworks like Spring Boot. Strong understanding of databases (MySQL, Firebase) and API development (RESTful). Focused on building scalable, efficient, and user-friendly applications that solve real-world problems. Eager to leverage full stack development skills to contribute to innovative projects in a collaborative environment.

Skills

- Java, Spring Boot, React.js, JavaScript
- C & C++, ASP.NET
- MySQL, SQL
- RESTful API Development

Project

- Remote Team Collaboration Tool** | (03/2024-08/2024)
This project focuses on developing a team collaboration tool using Spring Boot, React, and MySQL. The goal was to create a platform where team members can collaborate efficiently by managing projects, tasks, and communication in one place. It includes features like project creation, task assignment, user roles, and data management.
